Receive Superior Care at the McGaw Care Center

As a part of Westminster Place's continuum of care, the consistently 5-star rated McGaw Care Center offers residents short-term rehabilitation and long-term skilled nursing care in a comfortable private room.

Individualized Rehabilitation and Skilled Nursing Care

The McGaw Care Center at Westminster Place is consistently among the industry leaders in terms of low hospital re-admission rates, customer satisfaction and is designed to look and feel like home with sun-filled rooms that overlook our campus of mature trees and flowering gardens.

A primary care nurse oversees every aspect of our personalized resident care. Rehabilitation therapy follows a similar approach with a dedicated team of nurses, therapists, and physicians who are experienced specialists in geriatric rehabilitation. We do more than simply guide you through your therapy activities, we build a strong bond with you, supporting and encouraging you through every step of your rehabilitation and recovery. In addition, we also offer aqua-therapy and strength training therapy at the Kimble Fitness and Therapeutic Center.

CARF accreditation is a sign of quality and should be an important consideration in the decision-making process of selecting a community. Westminster Place has earned the exclusive CARF accreditation since 1990.
